

## Custom Size Uniform Alteration Form

We need to know EXACTLY where your suit doesn't fit you properly and EXACTLY how much to take in or let out. Use measurement in fractions and inches, such as: .5 inches too small, we can't guess what you might mean by "Take in a little all over". Make a note if you think we need an explanation.

Please FILL IN the options and specify how much for each category, if it needs NO Adjustment in a category please fill in FITS OK so we know not to adjust this.
